Global Business Experience

Overview

Business is transformational, moves quickly, is decidedly global, and reaches into the most remote corners of this planet to lift people up. People and ideas move beyond boundaries and borders. Cultural awareness and the ability to see others for who they are has become an essential business skill.

“The world is a book and those who do not travel read only one page.” -St. Augustine

Olivet is excited to offer a Global Experience in partnership with BGlobal as a Capstone option in the MBA and MOL programs. The BGlobal Studies program mission is to “train leaders to transform society” while serving where God has called them to serve. One way we do this is by placing students for short journeys “in country and on ground.” Through short international trips, students interact with kingdom companies and social enterprises, develop their cultural intelligence and experience societies being transformed. Please contact your academic advisor for more information about the trips that are currently being offered.

Discover the ways our world is changing through the integration of economics, education, social, and spiritual transformation.
Explore your kingdom fit and mission in our developing nations.
Interact with international leaders who are change-agents in their cultures.
Develop cultural intelligence as you are exposed to other countries.
Create a personal plan to transform yourself, family, work, and community.
